NOTE:
1) Size TL1 thru TL4 to fit GFE power cable.
2) Attach TL4 lug to chassis plate.
3) Connect terminal lug TL5 thru TL19 to chassis plate.
4) All twisted-pair wires are 22AWG unless noted.
5) For Filter Module "FM1" refer to schematic 85-03020.19
6)  For "PM1" thru "PM5" refer to schematic 85-03020.20
7) Use 22AWG single conductor on pigtails.
8) "VME EMI Filter Circuit Board"
9) Power System & Distribution
10) "VME DC-DC Converter Circuit Board"
11) "VME LR Filter Circuit Board"
