Subject: T Balance Procedure Approval

Good afternoon! The following is what I consider to be formal MSFC approval of the Thermal Balance Test Procedure. Gerry Flanagan and I are working out a system whereby procedures are formally submitted and approved. This will have to do for now.

Thanks, Phil

Subject: Test Procedure Concurrence
Mime-Version: 1.0

Phil,

MSFC has reviewed procedure number ACIS-500-77-01, CAMSIM DH and FU TCS Thermal Balance Test. The procedure meets MSFC-HDBK-670 requirements and is satisfactory from a technical perspective. Thanks,

GFF
