Requirement Closure

Requirement Title:
Analog Circuit Routing

Compliance Data/Location:
No further submittals required

36-01510.147

Verification Method
Review of Design

Comments:

ACIS grounding has changed since CDR. ACIS must provide new grounding schematic or other data in order for MSFC to verify this requirement.

9/3/97
No change made to analog circuit grounding.
Grounding change made recently does not affect the RCTV interface (subject of this reqt).
