

ACIS Verification Summary Report

Specification:	ACIS Contract End Item Specification
-----------------------	--------------------------------------

Requirement Number/Title:	3.7.5.4 Fault Management (VRSD 3.7.5.4-3)
----------------------------------	---

Requirement Statement: The instrument flight software shall include the capability to report status and provide sufficient engineering data to the observatory telemetry system to verify instrument operation and support the ground controller in critical decisions.

Verification Method:	Test
-----------------------------	------

Procedure Number: 36-01510.86

Configuration:

Cycle Time:

Verification Discussion/Results:

Refer to: 36-01510.86 Thermal Environment

Attachment - A (ACIS Long Form Functional Test Procedure 36-01301.02 Section 4.6)

Results: The instrument reports on the status of DEA settings and crucial temperature values.
