

**ACIS Verification Summary Report**

<b>Specification:</b>	AXAF Observatory to Science Instrument ICD (IF1-20)
-----------------------	---

<b>Requirement Number/Title:</b>	3.6.1.1.1.1 Buffer Size (VRSD 3.6.1.1.1.1)
----------------------------------	--

<b>Requirement Statement:</b>	ACIS commands stored in OBC shall require no more than 10 K Bytes.
-------------------------------	--

<b>Verification Method:</b>	
-----------------------------	--

<b>Procedure Number:</b>	
--------------------------	--

<b>Configuration:</b>	
-----------------------	--

<b>Cycle Time:</b>	
--------------------	--

**Verification Discussion/Results:**

This is an Observatory requirement for 10 K byte storage.

At the current time (5/30/97), patches to the flight software occupy about 2 K bytes of the 10 K bytes available.
