

MST-0422

MWA analogue signal conditioning module

Test: Current draw test

Serial number: 002

Tester: Julian Schneider

Date: 20 Dec 2010

Test procedure

1. Install 8 x 50 Ω 1W terminators on output SMA connectors
2. Connect +12V to P100 connector using JIG-010
 - ***Verify current draw is equal to sum of currents for all 8 channels as measured in RF gain and frequency response test +/- 50mA***

- *Desired value:* 4076mA

- *Measured:* 4280mA
