

MST-0417

MWA 550-ATIM I2C PCB

Test: Power on, voltage and current draw

Serial number: _____

Tester: _____

Date: _____

Test procedure

1. Apply power through J1 (+5V & +12V) using JIG-0007
2. Check LED 1 & LED2 light
 - Record current draw on 5V 136 mA ¹⁵⁰ < 100 mA
 - Record current draw on 12V 0 mA < 50 mA - SL2 OPEN
 - Check 3.3V at pin 3 of U5 (there is a pad near positive end of C13 since there is no designated test point)
